GRADUATE DEGREES

Presented by DEAN DANIEL T. WATTS

MASTER OF SCIENCE

- STANLEY BERNSTEIN, *Pharmacology*-----Hillside, New Jersey
B.S., Rutgers University, 1966
Thesis: The relationship between emotionality and behavioral performance in a random population of Charles River rats.
- ROY FREDERICK J. DAVIS, *Pathology*-----Salisbury, Rhodesia
B.S., Medical Council of Rhodesia, 1967
Thesis: Separation and partial characterization of components derived from human erythrocyte membrane.
- *GERALD IRVIN DRURY, *Physiology*-----Chicago, Illinois
A.B., University of Illinois, 1966
Thesis: Free amino acid release from isolated rat liver cells.
- RICHARD MARTIN HOGAN, *Physiology*-----Arlington, Virginia
B.S., Union College, 1966
Thesis: Glucose dehydrogenase activity of a 'sweet-sensitive protein' from bovine tongues.
- MARY ELIZABETH KASEY, *Medical Technology*---Martinsville, Virginia
B.S., Madison College, 1951
Thesis: Hematology quality control in a large medical center.
- HENRY P. LAU, *Chemistry*-----Kowloon, Hong Kong
B.S., Randolph-Macon College, 1967
Thesis: A kinetic study of the homogenous catalytic hydrogenation of 2-Butyne-1,4-diol and *cis*-2-Butene-1,4-diol.
- NANCY LAPRADE SMITH, *Biochemistry*-----Richmond, Virginia
B.S., Mary Washington College, 1963
Thesis: A time course study of *in vivo* effects of hydrazine on rat liver protein and nucleic acid content.
- DANIEL CLAYTON SUMMERLIN, JR., *Biology and Genetics*
Mount Olive, North Carolina
A.B., Duke University, 1967
Thesis: Characterization and inheritance of a rare type A blood subgroup.
- VANESSA HILRETT TAYLOR, *Medical Technology*---Charles City, Virginia
B.S., Medical College of Virginia, 1956
Thesis: A scheme for the rapid identification of the enterobacteriaceae.

VIRGINIA COMMONWEALTH UNIVERSITY

and its

Health Sciences Division

Virginia Commonwealth University was established in 1968 through the consolidation of the Medical College of Virginia and Richmond Professional Institute. Dr. Warren W. Brandt became first president of the University on June 1, 1969.

The Medical College of Virginia, now known as the Health Sciences Division of Virginia Commonwealth University, was established in 1838 as the medical department of Hampden-Sydney College.

The Egyptian Building, completed in 1845 on a site then known as Academy Square, was the first building owned by the College. The archives reveal no remarkable events until 1853 when a controversy led to a rupture, and the medical department of Hampden-Sydney College became the Medical College of Virginia, an independent institution chartered February 23, 1854. When the Commonwealth of Virginia appropriated \$30,000 for the College's first hospital in 1860, MCV became a State-supported institution. In 1893 a second medical college, the University College of Medicine, opened its doors just two squares from the Egyptian Building. These two colleges were consolidated in 1913.

The hospital facilities consist of four hospitals with a total bed complement of approximately 1,200, an outpatient department, and a 60-bed self-care unit.

The present teaching program is made up of the schools of medicine, dentistry, pharmacy, nursing, graduate studies, allied health professions, hospital administration, medical technology, physical therapy, and radiologic technology. Certificate programs include blood banking, cytotechnology, and x-ray technology courses and a dietetic internship. Plans call for the addition and expansion of certificate programs and schools in the near future.

The campus, now known as the Health Sciences Center, covers more than 33 acres of downtown Richmond. Its buildings are valued at over \$74,000,000, based on replacement costs.

The former Richmond Professional Institute, known as the Academic Division of Virginia Commonwealth University, began in September 1917 as the Richmond School of Social Work and Public Health. In 1925, following expansion of its curriculum into numerous programs, it became the Richmond Division of the College of William and Mary. In 1939 its name was officially changed to Richmond Professional Institute of the College of William and Mary. In 1962, by act of the General Assembly of Virginia, it was separated from the College of William and Mary and made an independent State-supported institution. Its campus is known as the Academic Center.

TEACHING, RESEARCH AND CARE OF THE SICK OUR THREE-FOLD RESPONSIBILITY

Total enrollment in the schools and courses for the academic year 1968-1969 was:

School of Medicine -----	451
School of Dentistry -----	302
Postgraduate -----	7
School of Pharmacy -----	238
School of Nursing -----	393
School of Graduate Studies -----	79
School of Hospital Administration -----	50
School of Medical Technology -----	30
School of Physical Therapy -----	58
School of Radiologic Technology -----	21
Blood Bank Course -----	2
Cytology Course -----	2
X-Ray Course -----	23
Dietetic Interns -----	13
Hospital Housestaff -----	293
Total -----	1,962

RESEARCH

A vital part of any teaching institution is research. Adequate funds and facilities for research afford the opportunity for contributing new knowledge applicable to the treatment of disease; these also constitute an important attraction to outstanding medical scientists, whose presence is conducive to an invigorating climate of learning.

CARE OF THE SICK

During the fiscal year ending June 30, 1968, some of the services given in our hospitals were:

33,479 patients admitted
 55,052 patients treated in the emergency rooms
 5,378 babies delivered
 111,783 outpatient visits made to the A. D. Williams Memorial Clinic
 460,903 prescriptions filled in the hospital pharmacy

ENDOWED PROFESSORSHIPS

Endowed professorships have been established in honor of these individuals who have played vital roles in the development of the College:

Arthur Graham Glasgow Professorship of Hospital Administration. This professorship was established in 1957 in honor of Doctor Glasgow, who provided so generously in his will for the College and who had shown such a vital interest in hospitals;

Stuart McGuire Professorship of Surgery. This professorship was established in 1959 in honor of Dr. Stuart McGuire, who was president of the University College of Medicine when it was consolidated with the Medical College of Virginia in 1913, and who was successively professor of surgery, dean, president, and chairman of the Board of Visitors of the combined institutions. Doctor McGuire died in 1948. His wife, Mrs. Ruth Robertson McGuire, died February 10, 1963. The bulk of the estate of both Doctor McGuire and his wife was bequeathed to the College at her death to be used for the department of surgery;

William Branch Porter Professorship of Medicine. This professorship was established in 1959 in honor of Doctor Porter, who was chairman of the department of medicine from 1927 to 1956 when illness forced his retirement. He died October 6, 1960, leaving his entire estate in trust for the MCV Foundation for use of the department of medicine;

Harvey B. and Gladys V. Haag Professorship of Pharmacology. Established in 1963, this professorship honors Dr. Harvey Bernhardt Haag and his wife, Mrs. Gladys Vaden Haag. Doctor Haag, who died October 14, 1961, joined the College faculty in 1923 and was promoted to professor and chairman of the department of pharmacology in 1933. He also served as dean of the school of medicine from July 1, 1947 to January 1, 1951. Mrs. Haag died September 20, 1962. At Mrs. Haag's death, the bulk of their joint estate came to the MCV Foundation for the department of pharmacology.

MEDICAL COLLEGE OF VIRGINIA FOUNDATION

The Medical College of Virginia Foundation was incorporated during the session 1948-1949 to work with and through alumni and others in the broader interest of the College under separate officers and board members, who may be drawn from beyond Virginia. The Foundation undertakes fund raising for the institution and other services that a separate corporation of this type is especially fitted to do.

Officers of the Foundation are: Buford Scott, president; Eppa Hunton IV, vice-president; Ralph M. Ware, Jr., secretary; and L. Daniel Crooks, treasurer.

The Century Club was set up in 1955 within the framework of the Foundation. Club members (alumni and other friends) are asked to subscribe \$100 a year as long as they can do so conveniently.

WHAT FRIENDS CAN DO

Friends are the greatest asset of the College. They can help in making new friends, in discussing our needs and functions with others, and in considering what part they can play in the future of the institution. To every friend and potential friend, we give our sincere thanks for interest in and service to the College.

INVITATION

The continuing interest and support of a widening circle of friends are cordially invited. Bulletins and other pamphlets on our work are available upon request to the director of publications.

We are always pleased to show guests through the institution. While an appointment is preferable, arrangements can be made to tour the medical center at almost any time.

. . . ACADEMIC COSTUME . . .

Academic costume worn today at American college exercises goes back in its essential features to the Middle Ages. The oldest universities of northern Europe, such as Paris and Oxford, grew out of church schools, and both faculty and students were regarded in the Middle Ages as a part of the clergy. They wore clerical costume, largely borrowed from the monastic dress of that day not just on special occasions, but as their regular costume.

The head covering of the academic costume developed from the skull cap worn by the clergy in cold weather to protect their tonsured heads. In the universities, this skull cap acquired a point on top, which gradually evolved into a tassel. The bonnet with tassel is still worn by degree holders of European universities. In America, it has been replaced by the familiar mortar board, which still retains the mediaeval tassel.

The hood (the mediaeval *caputium*) was originally a head covering worn over the head in bad weather; otherwise dropped on the shoulders as the monk's cowl. At first it was worn by faculty and students alike, but in the early sixteenth century it was restricted to graduates; thus it became the mark of a degree holder. Today, each college has its distinctive hood lining by which its graduates may be recognized in academic processions.

The gown worn today is the mediaeval *roba* and seems to have been borrowed from the habit of the Benedictine monks. In the Middle Ages, undergraduates, bachelors, and masters could be distinguished by the simplicity or elaborateness of their gowns. The doctor's gown was often furred—this survives today in the ornamentation found on the doctoral gowns. Usually the gown is black, but some colleges have colored gowns.

The wide velvet borders extending down the front of the doctoral gown, the velvet bars on the sleeves, and the borders of most hoods are colored according to the scholarly field of the wearer. Some of these are:

<i>Arts, Letters, and the Humanities</i>	White
<i>Dentistry</i>	Lilac
<i>Education</i>	Light Blue
<i>Laws</i>	Purple
<i>Library Science</i>	Lemon
<i>Medicine</i>	Green
<i>Nursing</i>	Apricot
<i>Pharmacy</i>	Olive Green
<i>Philosophy</i>	Dark Blue
<i>Public Health</i>	Salmon
<i>Science</i>	Golden Yellow
<i>Social Service</i>	Citron
<i>Theology</i>	Scarlet
